Genoa University, Polytechnic School & Engineering Faculty

The University of Genoa is one of the oldest in Italy and in the World (founded in 1471 AD), it is located in middle of Italian Riviera.

The students are about 40,000 (about 8,000 new entries), and the Engineering Departments involve around 7,500 students distributed among Genoa Locations and two External Sites: Savona Campus and La Spezia Area

Recently the Polytechnic School was established combining Engineering Faculty and Architecture in order to reinforce the vocation of Genoa University to be an International Leader in Innovative Technologies in a wide spectrum of applications

MIPET

11th Edition
2020

Mastering Industrial Plant Engineering and Technologies is an initiative promoted by a joint Team of Academic Institutions, Industries and Associations. MIPET includes an International Master focused on these Issues. The MIPET Excellence is based on the strong cooperation among Academic and Technical Experts coming from Prestigious Universities and Leading Companies operating in this area with special attention to Energy, Iron & Steel, EPC, Large Industrial Plants and Process Industries, Oil & Gas

Driving Financial Services To Excellence

Be Group enables the leading financial services organisations to manage the complexity of business transformation. We demystify the digital world, helping our clients rethink business models, align with industry and regulatory requirements, engage customers, monetise assets, identify new revenue streams and monitor performance.

We believe that success is driven by collaboration and a passion for performance. Our growing team of over 1,000 diverse, highly skilled specialists combine industry knowledge with extensive practical experience, working with global players forming the present and future landscape of finance. At Be Group, we offer our clients strategic and operational services from management consulting to solutions development.

We are privileged to have in our team the best individuals in each sector we operate within the financial services industry.

Our main challenge is to constantly look for talent, passion, discipline, and energy needed to face the complexity of a changing world.
