

# STRATEGOS Webinar

## Technology as Enabler: Explainable AI

14.00-17.00, GMT+1, December 1<sup>st</sup>, STRATEGOS Webinars MS Teams

POC: **Dr. Enrico Ferrari, Rulx, e.Ferrari@rulx.ai**  
**Prof. Maurizio Mongelli, IEIT CNR, maurizio.mongelli@ieiit.cnr.it**

Joint Cooperation

*This Workshop proposes the new edge technologies as key enablers for advancing in many application fields as well as the evolution of crucial aspect.*

*In this Webinar the experts propose the crucial aspects dealing with a new approach in Machine Learning engines able to make Explainable the Artificial Intelligence devoted to support Decision Automation*

**Operational Decisions include usually approvals and responses based on defined logical rules. These activities are routines that correspond to frequent decisions, therefore they affect business outcomes and required to be fine tuned based on business evolution and boundary conditions changes. The experts will present an innovative approach based on *Rulebots* devoted to develop a simple and direct approach to automate operational decisions. By thus approach and by using logic, instead than math, in problem solving and finalizing decisions, it becomes much more easy to understand suggestions by predictive models. The Webinar presents practical applications of these new decision automation platforms**

*This Webinar runs on MS Teams; after each presentation it will be held an open discussion*

**CFP 3 Credits - Credits of Ordine degli Ingegneri are available for attending Engineers**

**Free Access for Industries, Companies and Professionals**

**Genuense**

**Athenaeum**
