

# STRATEGOS Webinar

## Technology as Enabler: IoT & AI

14.00-17.00, GMT+1, November 24<sup>th</sup>, **STRATEGOS** Webinars MS Teams

POC: **Prof. Maurizio Mongelli, IEIT CNR, maurizio.mongelli@ieit.cnr.it,**  
**Dr. Vanessa Orani, IEIT CNR, vanessa.orani@ieit.cnr.it**  
**Dr. Enrico Ferrari, Rulex, e.Ferrari@rulex.ai**

*This Workshop proposes the new edge technologies as key enablers for advancing in many application fields as well as the evolution of crucial aspect.*

*In this Webinar the experts propose the crucial aspects dealing with new advances in IoT (Internet of Things) devoted to extend the connectivity and create new opportunities for developing new services and products using AI*

Joint Cooperation

**IoT are creating a new world where each single sensor, device, machine, system and even person turn to be an active node in internet able to interact each other. In this sense, this represents a major opportunity to access and update data reproducing the whole reality and providing the base to develop new intelligent systems and solutions. Obviously at the same time the connectivity by itself as well as the related innovative services introduce new Vulnerabilities and criticalities that require to be properly addressed to guarantee Safety and Security over a wide spectrum of Applications. This Webinar proposes these topics as well as examples of innovative solutions and case studies related to critical issues.**

*This Webinar runs on MS Teams; after each presentation it will be held an open discussion*

**CFP 3 Credits - Credits of Ordine degli Ingegneri are available for attending Engineers**

**Free Access for Industries, Companies and Professionals**

**Genuense  
Athenaeum**

Est. 1471 AD
