

STRATEGOS *Blended Workshop & Webinar*

Intelligence: Meeting the Mind behind the stage

15.00-17.00 GMT+2, Oct.21 , 2020, Blended Meeting. Please Join Physically or by Web G2A Room, Building G, Engineering, Genoa University, via Opera Pia 15A, Genova, Italy

Webinar (by MS TEAMS) Warm-up Session & Testing starts at 1500B GMT+2

Prof. Paolo Scotto di Castelbianco, Genoa University & former Director Intelligence School at DIS

Prof. Agostino G. Bruzzone, STRATEGOS Council Chair and Simulation Team President

This Webinar is devoted to present the critical issues related to Intelligence based on Awareness and Capability to Analyze, Identify and Address major and critical issues.

Therefore the focus is on People and their fundamental role in driving the Analysis and Act as Strategic Resources within the “Big Game”

Intelligence is a complex service that is responsible for the **Collection, Analysis** and **Exploitation of Information** in support to a major Organization such as a **Country**, an **Agency** or a **Corporation**; Indeed, Intelligence is a very **Strategic Service** and requires advanced capabilities considering that is an activity usually carried out in intense **Collaboration & Competition** with many other **Players** over **very valuable Assets**, often dealing with most important Values and, sometime, even own survival.

Intelligence evolved over the years using the best of the best in terms of **Skills, Capabilities** and **Technologies** in order to play what *Kipling* was used to define the **“Big Game”** readapting the **“Grand Jeu”** introduced by *Noël du Fail seigneur de La Hérisseye*, 5 centuries ago. In the **“Big Game”**, the innovative use of **Strategic Engineering** is for sure a major advantage and it is fundamental to be able to **tailor** and to **design solutions** to these problems. Therefore, the most important aspect is still to prepare **People** able to play the **Game** and use their **talent, motivation, enthusiasm** and **preparation** to guarantee the **success**. The title **“Analysis is Citizenship”** overstresses this concept, pointing out that by carrying out these **Analysis** you guarantee the **Status** of your **Institution** as well as your own **Citizenship**.

The **extended** and **top level experiences** of *Prof. Paolo Scotto di Castelbianco, STRATEGOS Faculty member* and responsible of this Series of Events, provides great opportunities to discuss on this Subject and guarantees **very dynamic and interactive session** with our **Attendees**.

It is important to note these Concepts are not just related to the **Nations** and **National Security**, but have a major role in **Business** and **Industry** considering the very **Dynamic Nature** of **Current World** and the **Global Challenges** and **Threats**.

This **Webinar** is part of a **Intelligence Workshop** organized by **STRATEGOS** in **Genoa University**

**Genuense
Athenaeum**
