The new Age we experience is very Hard & Complex, therefore some Businesses are very successful, while Cyber Security & Digital Twins propose Challenges & Opportunities

Last year we proposed Cyber Security in Yachting and, this year several Cyber Attacks on Yachts emerged even in relation to current ongoing crisis.

STRATEGOS proposes Threats and Strategies for our **Strategic Engineers**

On these Subjects in terms of Strategic and Systemic Approach, it is a matter of approaching in new ways the Design, Direction and Service of Complex Systems

This is a great opportunity for **STRATEGOS**, 1st MSc in **Strategic Engineering** in Italy and among first ones worldwide, that prepare the future generations of Engineers devoted to deal with these kinds of Risks and Opportunities. The event is jointly organized by Genoa University to improve Competitiveness, Safety and Security as well as to develop Industry as part of a whole extended multidisciplinary framework where we live (i.e. land, air, sea, underwater, space & cyber space)

This Meeting is a hybrid event (live & virtual) and it guarantees 2 CFP for Engineers attending the event, thanks to Ordine degli Ingegneri.
