

STRATEGOS Webinar

Pandemics: Far East Experiences

9.00-11.00 GMT+2, April 9th, 2020, Webinar (by Microsoft TEAMS [Click Here](#))

POC: *Agostino Bruzzone, Simulation Team President and STRATEGOS Council Chair*
Webinar will be in English and running on MS TEAMS

This Webinar addresses the issues related to Pandemic Crisis in Far East including Initiatives on going there, Acquired Experiences and Lessons Learned to conduct a comparison between reaction models

China was the first victim of **COVID-19** followed by other **Far East Countries**, a lot of information was published therefore the **Evolution of Scenarios** as well as **Adopted Countermeasures** and **Reaction Models** are very important to recognize **Effective Strategies**, to prevent **Errors** and to identify **Risks**. Obviously each Country, Area and Scenario has peculiarity that need to be considered in order to transfer potential solutions in other context. During this discussion we will engage different **Scientists, Experts** and **Engineers** working in **Far East** to share **Data** and develop a **Common Awareness** on the on going situation in order to **Anticipate** and **Mitigate** the impact of **Pandemic Evolution**.

Examples of innovative **Models and Solutions** will be proposed to address different open issues related to the crisis.

This **Webinar** is part of events using **Strategic Engineering** to evaluate possibilities to **improve resilience, reduce vulnerability** and fight against this pandemic. Examples and Demonstrations will be used to solicitate interactions among attendees and to identify how advance technologies could support **Decision Makers, Institutions** and **Companies**.

This **Webinar** is part of a **Pandemic Webinars** organized by **STRATEGOS** in **Genoa University**

Università di Genova
