

# Workshop: STRATEGOS Independence Day

## Strategic Engineering as Winning Strategy for the Independence from Risks of Digital Age

A **STRATEGOS** is a person able to know better what is going or is likely to happen

(Socrates, Laches, 423BC)

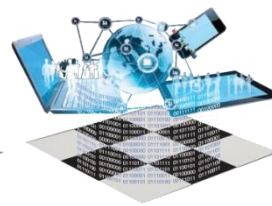

14.30-17.00, July 4, 2019 at FOIM, viale Andrea Doria 9, Milano, Italy

**STRATEGOS Independence Day Workshop** allows **Major Industries, International Agencies & Academia** to present **Strategic Engineering** as new discipline able to address successfully the *Digital Age Challenges*

**Strategic Engineering**, by combining **Modeling, Simulation, Data Analytics, Artificial Intelligence** and **Machine Learning**, enables to develop new solutions providing Major Advantages, as well as Protection respect the new Emerging Threats.

**Top Experts** will propose initiatives & examples on the potential of this *Revolutionary Approach* to get *Independent* from Risks and to Capture the opportunities of *Digital Age*

Please contact us to obtain a free invitation to the **STRATEGOS Independence Day**
