ABOUT US

“ **DEALS are made
80% by PEOPLE &
20% by TECHNICAL** ”

SERVICES

- SALES ENGINEERING
- SALES MANAGEMENT
- B2B MARKETING
- DIGITAL MARKETING
- BRANDING

EQUIPMENT

- EQUIPMENT PROVIDER
- INTEGRATION
- INSTALLATION
- COMMISSIONING
- PREVENTIVE MAINTENANCE
- SPARE PARTS MANAGEMENT
- SINGAPORE WAREHOUSE

MISSION

BRANDNEW PROMOTER is a leading Agency, Distributor and Systems Integrator in **Asia Pacific** for a selected group of overseas Principals who design and manufacture high quality **equipment**.

All machines can be uniquely designed to enhance your business's efficiency. To keep your machineries running smoothly we are able to arrange full service support with qualified engineering staff who are trained in all specific systems

“Communication, Marketing & Sales in 1 Solution”

Marketing & Communication

- Brand Identity
- Brand Awareness
- Creation of any kind of communication material to support the commercial activity (websites, brochures, professional PowerPoint presentations, elevator pitch).

Sales Management

- Business Development approach
- Sales Team Training
- Project Bid Approach
- Marketing Material Revision
- APAC Agents Monitoring & Auditing
- KPIs Defining & Setting
- Best-In-Class Approach

EQUIPMENT

PIETRIBIASI

Costruzione macchine settore lattiero caseario
Manufacturers of machines for dairies

- MILK PROCESSING LINE
- HOMOGENIZER
- CENTRIFUGAL SEPARATOR
- MILK RECEPTION & STORAGE
- MILK RECOMBINATION
- MILK FILLERS
- MILK STERILISATION & UHT MILK
- CHEESE MAKING
- BUTTER PRODUCTION
- ICECREAM PRODUCTION
- FRUIT JUICE AND SOFT DRINKS PRODUCTIONS
- BEER AND WINE PRODUCTION

- HIGH SHEAR MIXER MIXSING
- VACUUM
- PROCESS
- SHEAR
- INJECTOR
- VORTEX
- PILOT

MILK RECEPTION AND STORAGE

- Cooling tanks
- Liter counter plant
 - Plate cooler
 - Storage tanks
- Horizontal CIP cooling tank

MILK FILLERS

- Milk bottle packaging machine
- Ultra-clean milk carton packaging machine

MILK PASTEURIZATION, SEPARATION and HOMOGENIZATION

- Pasteurization plants
- Cream pasteurization and storage
 - Milk processing line
 - Homogenizer
- Centrifugal separator
 - Degassing
- Deodorizing plant

MILK RECOMBINATION

- Recombination tank
 - Mixing plants

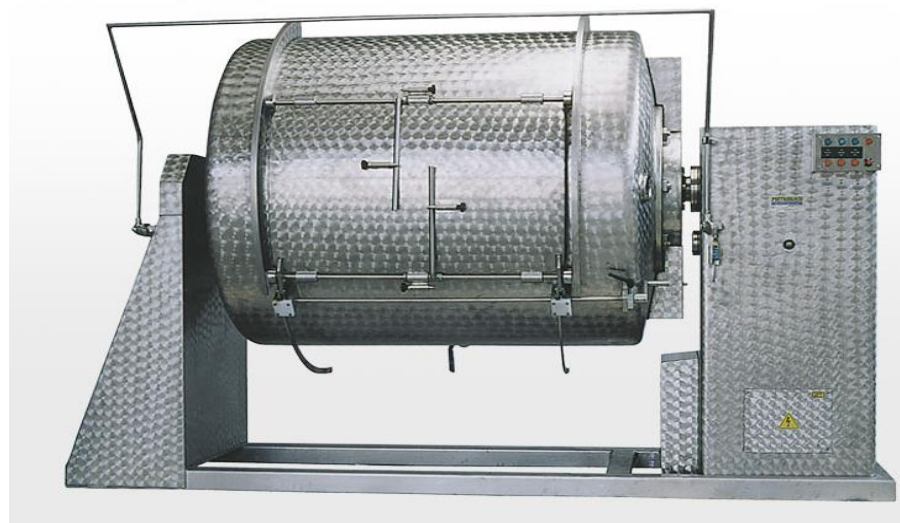

MILK STERILIZATION AND UHT TREATMENT

- Tubular UHT plant and degasser
- UHT line with aseptic tank and circuit
- UHT special PLC panel
- UHT special recorder pane

CHEESEMAKING

- Cheese distribution and molding machine
 - Multipurpose tanks
 - Surfacing system for ricotta
- Curd collection and pre-pressing
- Batch cooker, stretcher, molder, former

BUTTER PRODUCTION

- Churns
- Forming machines

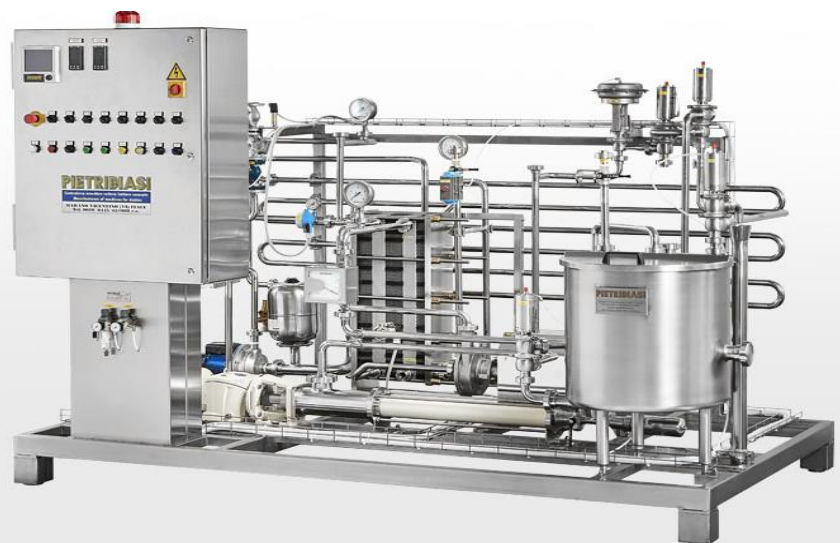

YOGHURT PRODUCTION

- Fermentation tanks
 - Plate coolers
 - Batch pasteurizers
- Yoghurt cups and fillers
- Yoghurt packaging plant

FRUIT JUICE AND SOFTDRINKS PRODUCTION

- Syrup room and mix preparation plant
- Free-flow plate heat exchangers
- Chilled water plant
 - Steam generator
- Premix and carbonation units
- Technical solutions for hot and cold filling

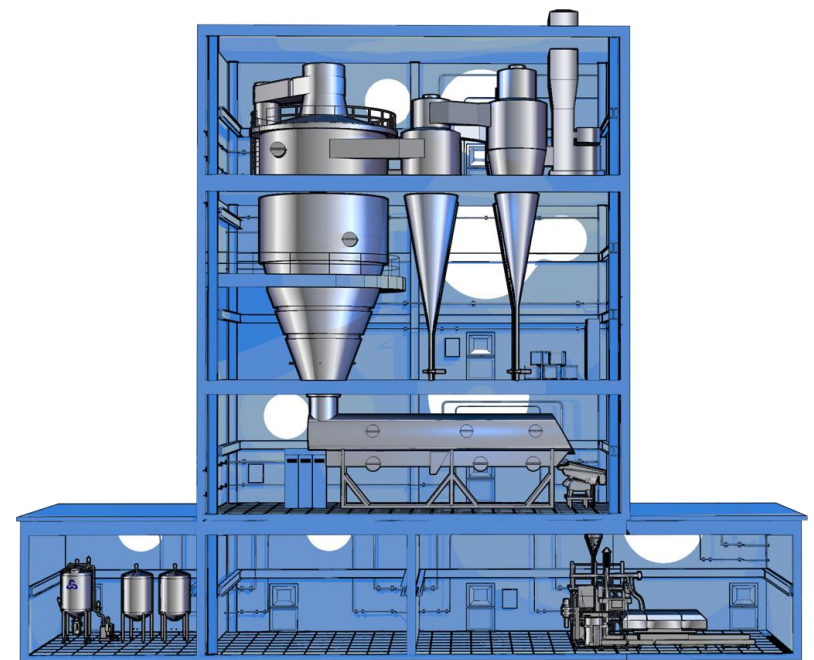

BEER AND WINE PRODUCTION

- Pasteurizers
- Special plants

ICECREAM PRODUCTION

- Complete batch preparation and pasteurization plants
 - Preparation, pasteurization and homogenization lines for continuous ice cream mix (HTST).
- Chilled water producer
 - Blender
 - CIP washing unit
 - Fat melting tank
- Cooling towers, chillers, and freezers

MIXSING RANGE

- Standard
- Vacuum
- Process
- Shear
- Injector
- Vortex
- Pilot

APPLICATIONS

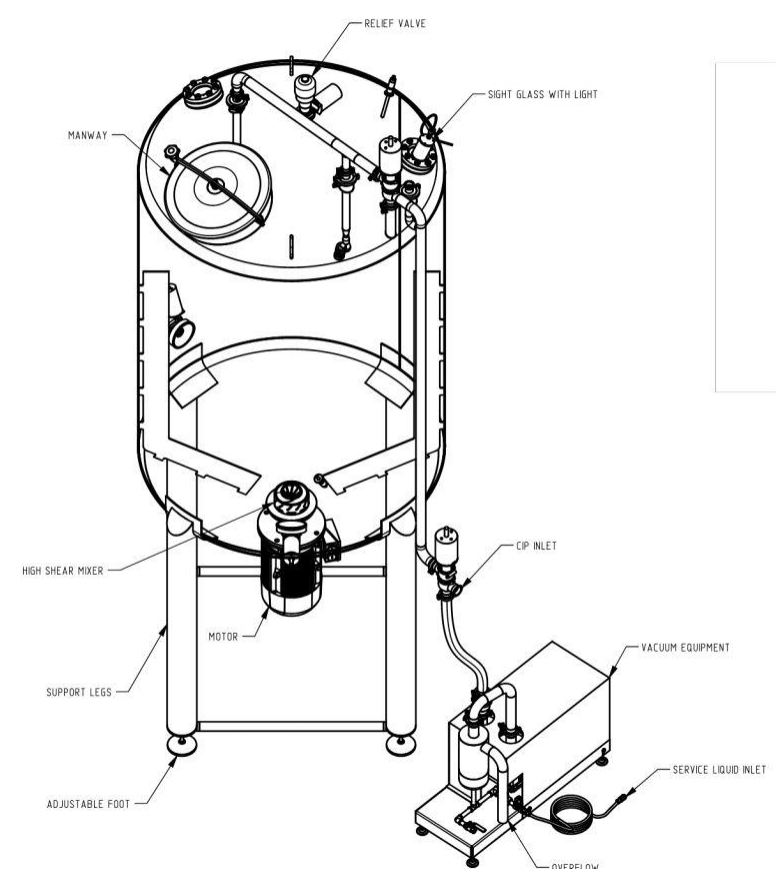

- Wet Mix
- Spray drying
- Powder handling

TPS HIGH SHEAR MIXER: SETTING NEW STANDARDS

Reimagine the mixer has allowed TPS to design and **create a new product** - designed for today.

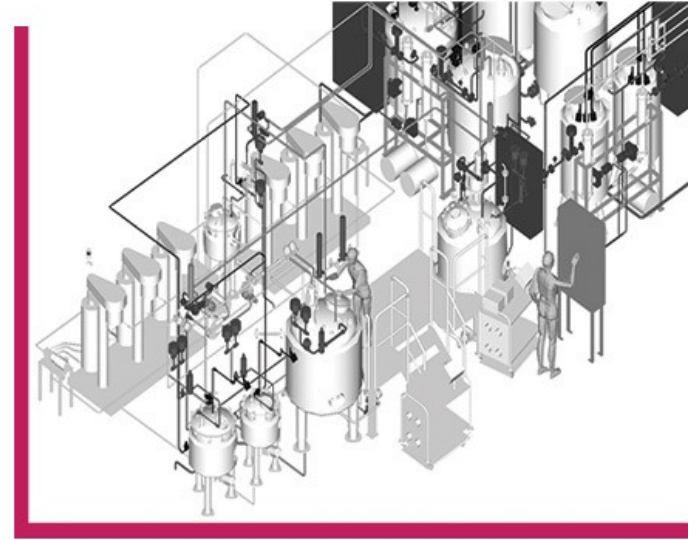

The MixSing series of products and accessories encapsulate today's requirements for minimized utility consumption, innovative designs and groundbreaking technological advantages.

The focus has been on optimizing the shear rate of the mixing head. TPS achieved an industry high high shear rates of up to 200,000 s⁻¹ providing you with new product opportunities. The design progressions also lead to a reduction in the power consumption and to the option of being able to relocate the vacuum pump away from the process area for lower noise levels.
