

COMPANY PRESENTATION

Huawei was founded in 1987, in the southern Chinese city of Shenzhen, and today is a leading global provider of information and communications technology (ICT) infrastructure and smart devices.

With integrated solutions across four key domains – smart devices, telecom networks, IT and cloud services – we are committed to bringing digital to every person, home and organization for a fully connected, intelligent world.

Everything we develop and deliver to our customers is secure, trustworthy, and this has been consistent over a track record of 30 years.

At Huawei, innovation focuses on customer needs. We invest heavily in basic research, concentrating on technological breakthroughs that drive the world forward. We have more than 194,000 employees and we operate in more than 170 countries and regions.

Huawei nasce nel 1987 a Shenzhen, in Cina ed è oggi uno dei maggiori produttori di infrastrutture ICT e smart devices al livello globale.

Attraverso i nostri quattro core businesses – smart devices, telecom networks, IT e servizi Cloud - abbiamo l'obiettivo di diffondere la digitalizzazione per un mondo totalmente connesso e smart.

In Huawei l'innovazione è volta a soddisfare i bisogni del cliente. Crediamo fortemente ed investiamo nella ricerca in quanto motore del mondo. Contiamo più di 194.000 dipendenti e siamo presenti in più di 170 Paesi nel mondo.

JOB OFFER

Our **Graduate Program** is a challenging 2-years program with both technical and cross training in which you will have the opportunity to acquire certifications and build your career path within Graduate International community at Huawei.

Responsibilities

Key job responsibilities include (but are not limited to) providing optimization and global technical support for projects on fixed and wireless networks fields, i.e. transport, access and datacom technologies. You will join the Italian Huawei Representative Office providing post-sale services to Italian and international Huawei customers. The candidate should have excellent communication, presentation and technology skills. The other job responsibilities include keeping under control the KPIs status based on the SLA stipulated with the customers and performing optimization activities for network development.

The selected graduates will take part to a program and get the chance to join in a variety of different and challenging positions within Huawei.

Requirements

- Fluent or native in Italian, spoken and written;
- Master in Telecommunication, Information Technologies, Computer Science, Management or Electronic Engineering;
- Graduated or recently Graduated (ideally from no more than 6 months);
- Fluent English knowledge;
- Willingness to learn, excellent communication and problem solving skills.

What we offer

- Very competitive salary;
- A variety of specific and cross trainings;
- An innovative and friendly multicultural environment.

Location

- Rome, Via Laurentina, 449/ Tower E, 00142
- Milan, Via Lorenteggio 240 Tower A, 20147
