Meeting Program 15 aprile, 2024

- 9:00 am - 5:45pm CEST Live & by Webinar
Salone Villa Cambiaso (am), via Opera Pia 15a (pm)
- 9:00 Welcome Prof. Agostino G. Bruzzone
 - 9:15 Prof. Giorgio Roth, Dr. Crocco, Ing. Lombardo
 - 9:20 Eccellenza e Competitività Oggi
Responsabili di Aziende Leader a livello Mondiale evidenziano Sfide e le Opportunità, in parallelo, sin dal mattino, si terranno le Campus Interviews
 - 13:30 Break
 - 14:00 Meeting with Companies & Campus Interviews
 - 17:45 Chiusura

Invito esteso a tutti gli Studenti di Informatica

L'Industria incontra Giovani Ingegneri: Sfide ed Opportunità LIVE

Genoa University, Polytechnic School & Engineering Faculty

The University of Genoa is one of the oldest in Italy and in the World (founded in 1471 AD), it is located in middle of Italian Riviera.

The students are about 40,000 (about 8,000 new entries), and the Engineering Departments involve around 7,500 students distributed among Genoa Locations and two External Sites: Savona Campus and La Spezia Area

Recently the Polytechnic School was established combining Engineering Faculty and Architecture in order to reinforce the vocation of Genoa University to be an International Leader in Innovative Technologies in a wide spectrum of applications

For further Information about the Engineering & University of Genoa:

Ordine degli Ingegneri della Provincia di Genova

Intellectual Capital for Future of Engineering

Jack Welch (GE CEO 1981-2001 from \$14 billions market value to over \$410 billions): Globalization has changed us into a company that searches the world, not just to sell or to source, but to find Intellectual Capital: the World's Best Talents and Greatest Ideas

Scientists investigate that which already is; Engineers create that which has never been
Albert Einstein, Physics Nobel Price 1921

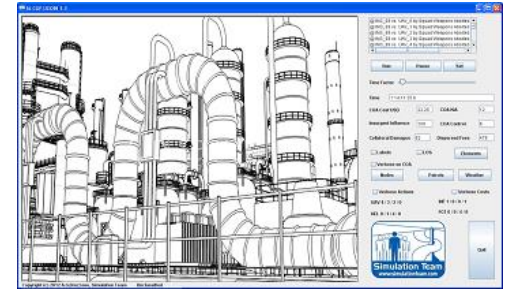

World Urbanization, Current & Future Changes & Crises

Management of a Region or a Town is a challenging activity dealing with Volatility, Uncertainty, Complexity and Ambiguity and it requires to consider many factors and to involve multiple different stakeholders. In case of crisis the management is even more difficult: while governance procedures are suitable for normal everyday operations, they could fail when conditions are critical. In this case, the new problematic situation could have no previously developed procedures or have one that is purely theoretical and was never experienced (e.g. lack training, low reliability, difficulties in decision making).

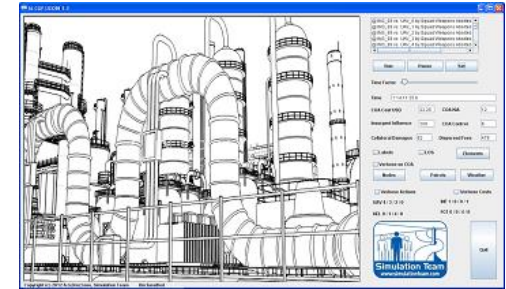

Digital Twins...

... exist, therefore we have to look inside to see their characteristics and usability

Keep in Mind...

... XR could be supported by very innovative as well as consolidated supports

XR eXtended Reality as combination of Virtual and Augmented Reality (VR & AR)

... the Potential of new Solutions

The Author conducted various experiments on different solutions, devices and platforms to improve safety in ports & industrial plants. For instance, there were tested solutions based on tablets and smartphones and CAVEs.

Strategic Engineering & STRATEGOS

Strategic Engineering is a new Discipline, devoted to combine Modeling & Simulation, Data Analytics & Artificial Intelligence in closed loop to support the **Strategy Development & Decision Making**

A **Strategy** is not a Plan, a **Strategy** is the ability to well direct your own resources to achieve major Goals for your success

AI Artificial Intelligence

STRATEGOS aims to develop an International Capability in **Strategic Engineering** and it's the 1st Master of Science in Italy and among first ones worldwide on this subject

STRATEGOS promotes the new ways to use Quantitative Modeling and Analysis by preparing the new generations of Experts, among Engineers, Managers and Officers to be able to interact directly with the Top Decision Makers on Crucial Problems

STRATEGOS

Strategic Engineering allows to combine many different sources of data and to clean, elaborate and fuse them together using AI and Data Analytics to extract information.

This allow us to know what happen in the past and what is happening now to get a good picture of the present and to understand it better by using our up-to-date Models & AI

AI Artificial Intelligence

The Models are used to simulate the situation and the impact of our decisions but also to consider all possible alternatives in terms of situation changes and other players moves.

So the Decisions are made with benefits of Results of Simulation & Smart Systems based on AI

The real impacts of our actions on the field allows to dynamically refine our models & simulators by using advanced Machine Learning Techniques

STRATEGOS

The Strategos...

ἡ Στρατηγία κάλλιστα προμηθεῖται τά
τε ἄλλα καὶ περὶ τὸ μέλλον ἔσεσθαι,
οὐδὲ τῇ μαντικῇ οἶεται δεῖν ὑπηρετεῖν
ἀλλὰ ἄρχειν, ὡς εἰδυῖα κάλλιον τὰ περὶ
τὸν πόλεμον καὶ γιγνώμενα καὶ γενησόμενα

...owns the Art to Know better what is Happening or is Likely to Happen

STRATEGOS

The Strategos...

Lê o conscidera e mirë comme di senplici
strumenti pe focalizâ a seu energia,
cöse che peuan ese cangiaë quande
cangian e prioritæ: de neuve peuan
azonzise e de atre peuan ese eliminæ

...looks at goals as to simply tools to focus positively the energy, these can be changed as
his priorities change, new one added & others dropped

Important Partnership with major Agencies & Companies

Currently, many Major Companies, Institutions and Agencies are in active Partnership with **STRATEGOS** on Workshops and Exercises, as well as on Internships (6 months), Summer Stages (3-6 weeks) and Project Initiatives

New Threats... & New Assets Real... and... Virtual

Nowadays, there are new Threats in Physical World and in Cyber Space that need to be considered

At the same time New Solutions Exists to improve Safety & Security in Extended Maritime Framework dealing with Cyberphysical Systems, GPS Spoofing, Hybrid Operations and Media or Cyber Attacks to Critical Infrastructures

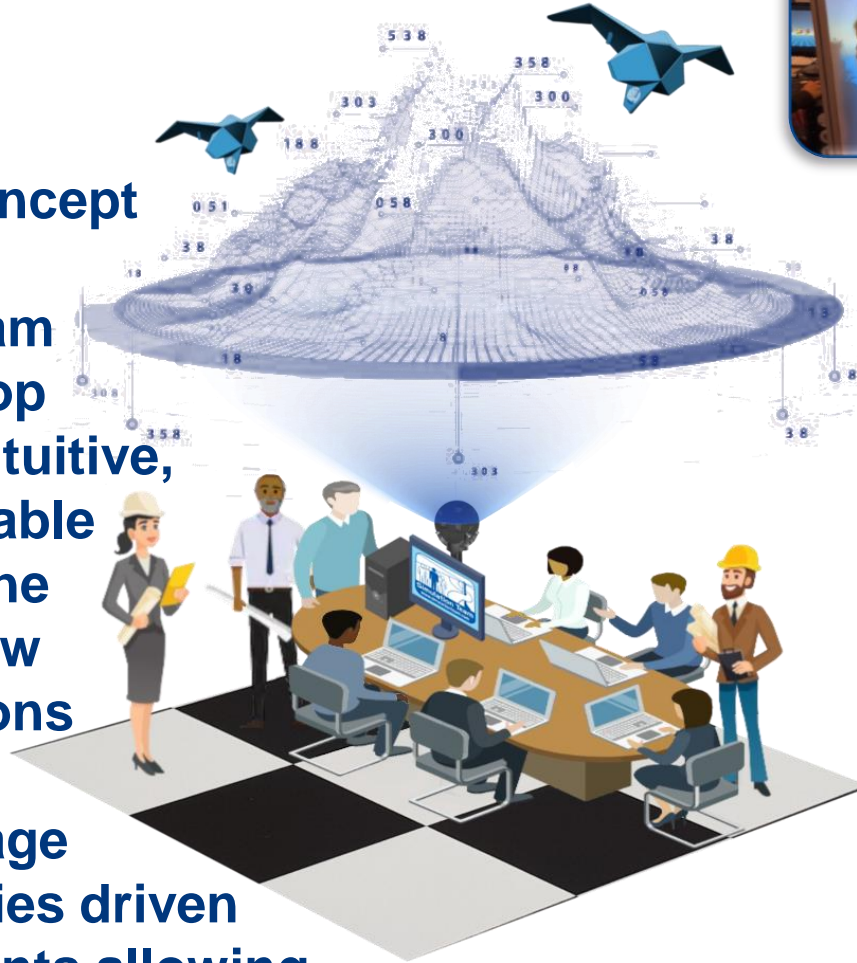

MS2G as Enabler

The new concept of MS2G by Simulation Team allows to develop Interoperable, Intuitive, Scalable & Reusable Simulators with the benefits of the new immersive solutions

The Models manage many active entities driven by Intelligent Agents allowing Simulate Complex Realistic Scenarios

STRATEGOS: COYOTE @ JG Lab & Science Club in Keqiao

JANUS

Joint Avatars & Networking Unified Simulation

- **JANUS** is a Serious Games based on AI, Avatars & Human Behavior Models to simulate Meeting Dynamics. Digital Transformation Projects
- **JANUS** has been developed to train & educate junior consultant and it is ready also to conduct assessments
- **JANUS** identifies criticalities & behaviors in the Projects of Digital Transformation by using Machine Learning
- **JANUS** allows to speedup the Digital Transformation on Companies by improving People and Processes

AI Artificial Intelligence

ML Machine Learning

BOTIM: Smart Retail Promotion by AI & M&S

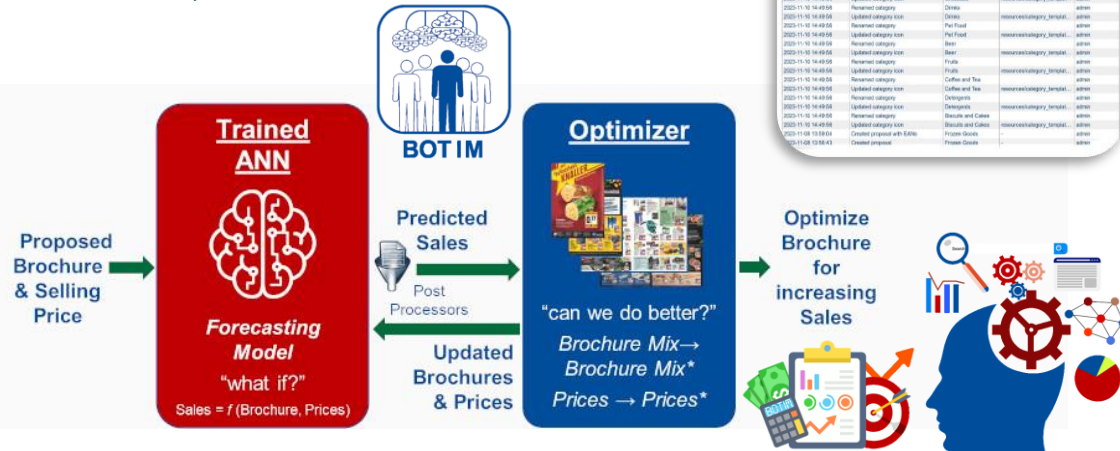

Brochure Original control Tool for Intelligent Retail Management

BOTIM adopts the innovative **Strategic Engineering** paradigm combining Artificial Intelligence. Data Analytics, M&S in closed loop with ERP, CRM, SRM and their Big Data to optimize decisions on Promotions, Sales, Profits and Customer Service as well as a Sustainable Supply Chain. **BOTIM** operates over Large Retail Networks covering Regions & Countries. **BOTIM** uses Simulation in combination with Genetic Algorithms and Neural Networks to optimize Sales, Profits & Promotions

CRM Customer Relationship Management
SRM Supply Relationship Management

ERP Enterprise Resource Planning

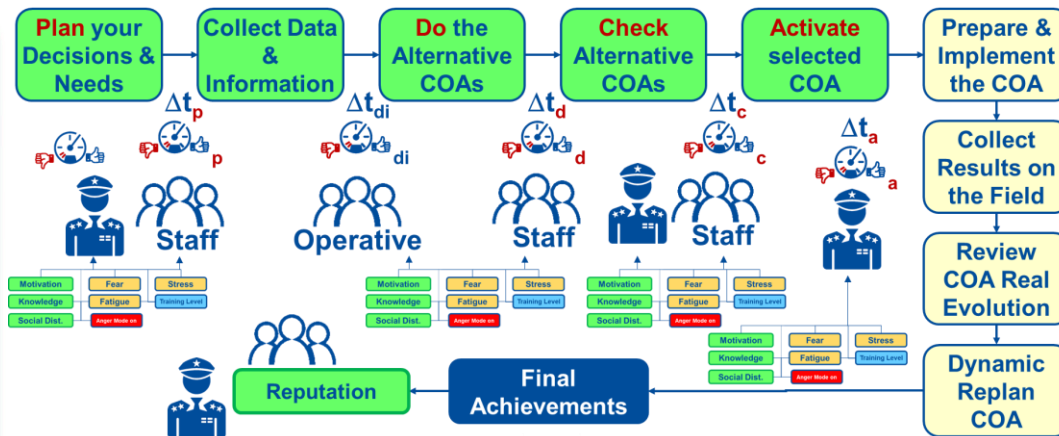

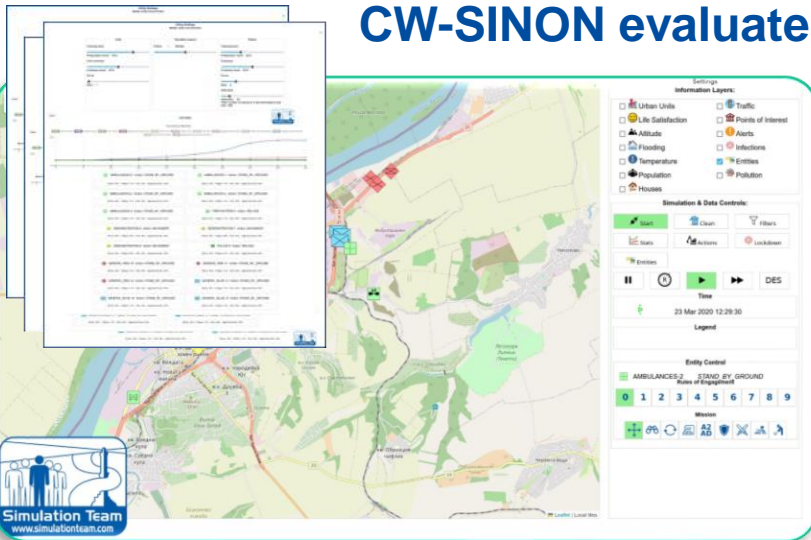

CW-SINON

Cognitive Warfare Simulation, artificial Intelligence & Neural networks for modeling human behaviors in Operations, population and social Networks

CW-SINON is the 1st Simulator ordered by NATO ACT to address the Cognitive Warfare context. The Simulator includes multiple Human Behavior Models (HBM) able to reproduce the impact of Cognitive Attack, BPSM, Kinetic Actions and Hybrid Warfare Initiatives over multiple players as well as Institutions and Population considering their Complex Structure.

CW-SINON evaluates impacts of different CW Strategies.

CAPIAS

CAbles, Pipelines, marine Infrastructures & Autonomous system: protection & Simulation

CAPIAS is a Solution using M&S, AI & XR for Protection of Critical Infrastructures such as UW Fields, UW Cables & Pipelines, Off-Shore Rigs, Wind Farms respect different Assets (e.g. Old. Conventional, Autonomous & Cyber) both as Threats & Defenders operating & competing over Multiple Domains

CAPIAS adopts Strategic Engineering: the new discipline supporting Decision Makers by combining the use of M&S, AI, Data Analytics in closed loop with Big Data from the field over Complex Systems Strategic Engineering. **CAPIAS** allows to Develop & Test: Ideas, Concepts, Tactics & Strategies, new Systems and even Decision Making

MIPET

**XV Edition
2024**

DIME

CONFINDUSTRIA
GENOVA

Ordine Ingegneri Genova

Mastering Industrial Plant Engineering and Technologies is an initiative promoted by a joint Team of Academic Institutions, Industries and Associations. MIPET includes an International Master focused on these Issues. The MIPET Excellence is based on the strong cooperation among Academic and Technical Experts coming from Prestigious Universities and Leading Companies operating in this area with special attention to Energy, Iron & Steel, EPC, Large Industrial Plants and Process Industries, Oil & Gas

WHAT IS MIPET

MIPET is the **International Master in Industrial Plant Engineering of Genoa University** (il *Master Internazionale in Impiantistica e Tecnologie, Scuola Politecnica, Ingegneria, Università di Genova*).

MIPET is the *1st and most consolidated* International Master Program of Genoa University, **fully sponsored privately by Major Multinational Companies**, investing on young Engineers and looking for talents. **12 Successful Editions in 12 years** confirm the strong Industrial Interest in **MIPET**

4 MONTHS TO WORK

MIPET XIV Edition starts end of **April 2024** and puts you at **Work** in **only 4 months**. After Labs & Lectures, you will conduct your **Internship in a Leading Industry** for 3 additional months, just to present your **Project Work** and being ready to evaluate final Job Proposals by Companies. MIPET Industries participate in Selection Process, they invest time & money in **MIPET**, so it's not surprising that our **Placement Rate overpasses largely 80%**.

* *MIPET guarantees possibility to participate to Engineers graduating in April, Academic Year last session
First Week is focused on English Lectures and there is a Summer Break in August*

LEADING ENGINEERING ... AND MORE!

MIPET Program is developed by Industrial Top Experts & Academic Scientists sharing 50% teaching on Practice & Theory of **Technical Advances of Industrial Plants and Technologies**. In addition, **Soft Skills Courses** (e.g. Project Management, People Management, HR Orientation*, Spanish for Latin American Markets) and **Seminars**, by Managers, Engineers and Scientists of 5 Continents, prepare you to **Work all around the Globe**.

* HR Human Resources

GOOD OPPORTUNITIES FOR JOB & YOUR CAREER

MIPET Outstanding Candidates get free registration, while large majority (usually 90%) receives **Grants** and have to pay only 1'900 Euro; by the way, MIPET Sponsors are expected to refund even this amount to students that they hire at the end.

The MIPET Internships are usually paid by Industries.

This year, the Companies are offering **Great Job Opportunities** to **Italian Engineers** attending MIPET and willing to work, based in their Genoa Offices or in Italy.

ZUCCHETTI

LA NOSTRA INNOVAZIONE, LE TUE PERFORMANCE

Da oltre 40 anni Aziende, Professionisti e Associazioni di Categoria trovano in Zucchetti un partner che realizza soluzioni con la tecnologia più avanzata.

Ciò ti consente di acquisire importanti vantaggi competitivi e di avere un business di successo.

Un'ampia e innovativa offerta di **soluzioni software, hardware e servizi ti permette di disporre della migliore soluzione sul mercato** e di avvalerti di un unico Partner in grado di soddisfare le tue esigenze tecnologiche.

CONNESSI CON IL TUO BUSINESS

Attraverso personale altamente qualificato **il Cliente è seguito in ogni fase ed esigenza**: da un competente supporto pre-vendita per individuare la migliore soluzione, a un tempestivo supporto post-vendita; da una puntuale formazione per sfruttare al meglio le potenzialità delle soluzioni, a un costante aggiornamento su tematiche civilistiche, contabili, fiscali, giuslavoristiche e previdenziali.

Più di 7.000 persone, di cui 1.500 dedicate alla Ricerca e Sviluppo, al servizio di oltre 700.000 Clienti.

PRESENTI, EFFICIENTI, AL TUO SERVIZIO IN ITALIA...

Siamo al fianco dei nostri Clienti con **sedi in tutta Italia e più di 1.650 Partner**: così possiamo garantirti un supporto costante e tempestivo.

...E NEL MONDO

Supportiamo le necessità dei Clienti con sedi e filiali all'estero con nostre società in Austria, Brasile, Bulgaria, Francia, Germania, Romania, Spagna, Svizzera, UK, USA e oltre 350 Partner in 50 paesi del mondo.

ACCELERIAMO LA TUA INNOVAZIONE

Grazie a soluzioni innovative **acceleriamo i tuoi processi di trasformazione digitale e dematerializzazione.**
