

COMPANY PROFILE

November 2021

NAVIONICS, A GARMIN BRAND

Established in 1984, in Viareggio, Navionics®, a Garmin® Ltd. Brand, produces electronic charts for the leisure boating market.

We were born from a revolutionary idea: the world's first electronic chart display, or chartplotter. Now we use location services every day on our mobile devices, and maybe even take them for granted. But, think about it: how pioneering is that? This state of mind is what Navionics® is founded on and our focus for future goals.

We want to expand as the global leader in marine content and location-based services built on innovation derived from our lifestyle appreciation, digital expertise and crowdsourcing. Our cartography is available to boaters for use in GPS chartplotters, and within our app for Apple® and Android™ devices.

OUR OFFICES

Our head office is based in **Massarosa**, Tuscany, a lovely area easily accessible to cities of art, beaches and mountains but Navionics also has offices in the U.S. in **Dartmouth**, Massachusetts and **Hyderabad**, India.

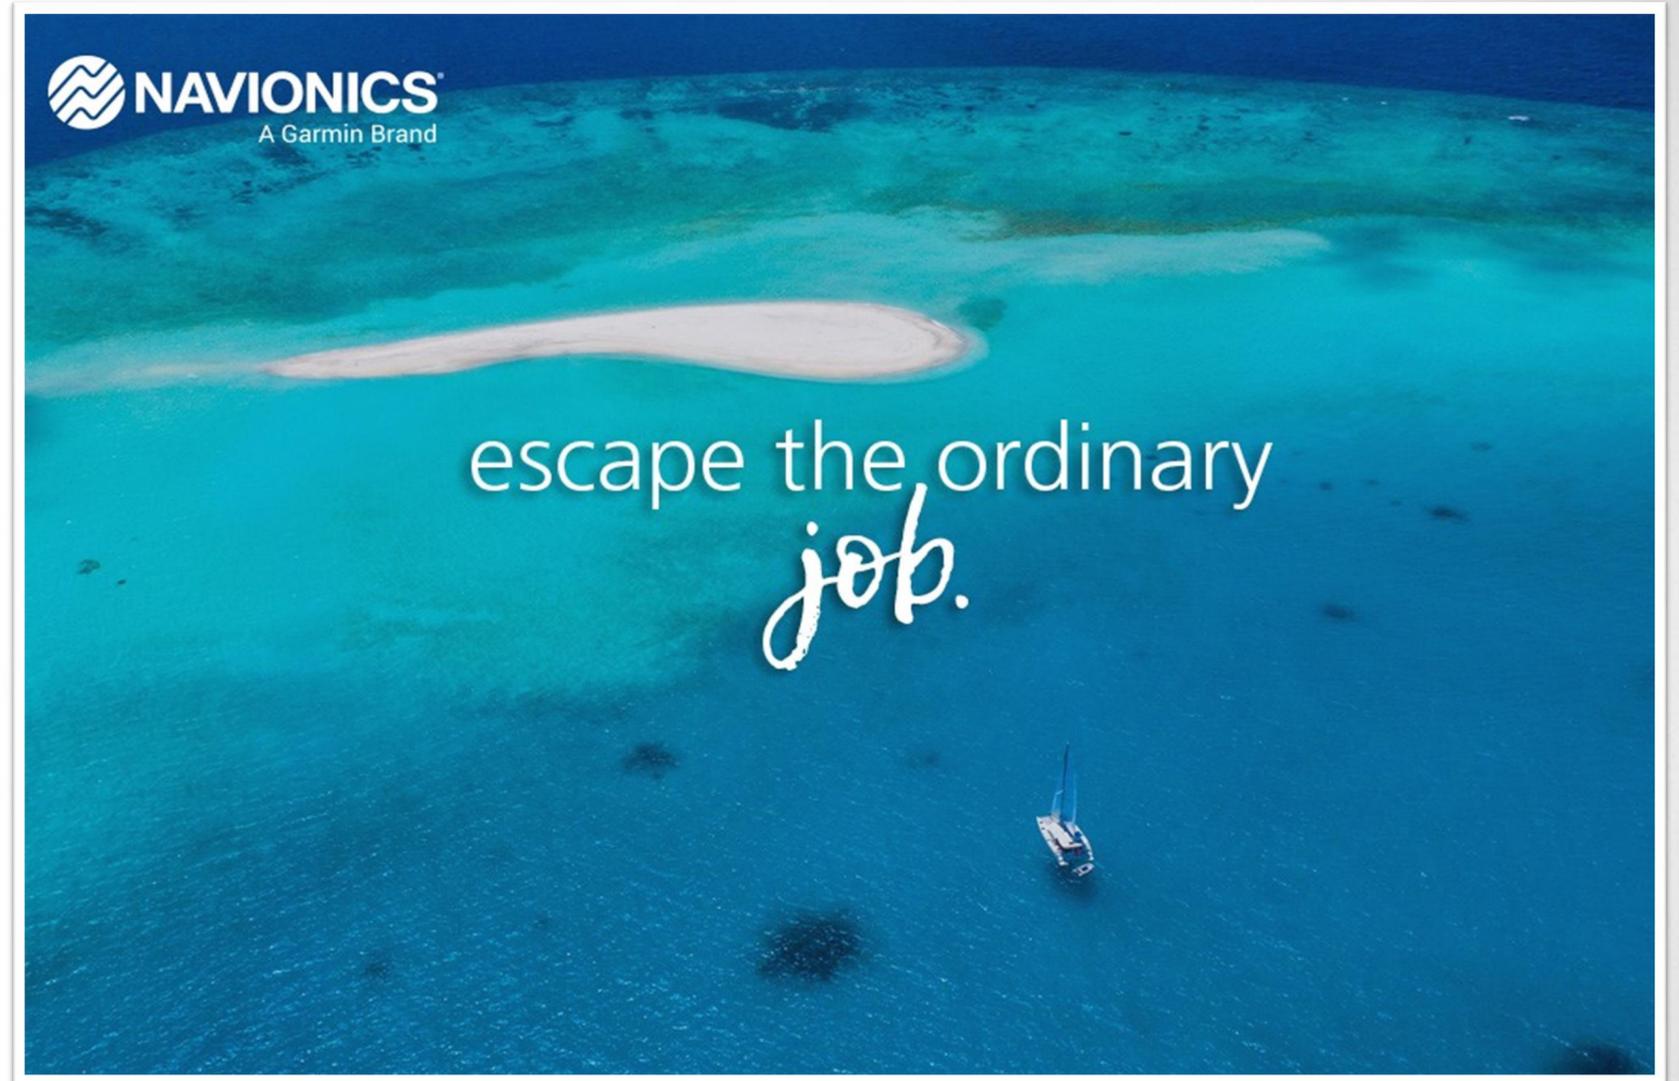

NAVIONICS AT A GLANCE

- Garmin® + Navionics®: a win for every user, the best of both worlds!
- First company using GPS for recreational purposes
- The world's largest cartography database which includes oceans, seas, rivers and more than 38,000 lakes
- A multinational company
- Team work across Italy, US and India by talented and enthusiastic individuals contributing to the company's success
- People make the difference

ESCAPE THE ORDINARY *JOB*

We are a team of professionals who work together **with passion to market leading, intuitive and innovative products.** Each associate is fully committed to **servicing** customers and fellow associates through **outstanding performance** and accomplishing what we say we will do.

We share the goal of hiring and retaining the **best talent.** We also seek to provide associates with **competitive compensation, generous benefits, career growth opportunities and a fun and engaging work environment** that encourages **long-term** contributions.
