

# STRATEGOS Webinar

## Strategie & Economie nei Trasporti e Logistica

9.30-12.00am GMT+2, 18 maggio, 2020, Webinar (by Microsoft TEAMS Click [Here](#))

POC: Prof. Rocco Giordano, Direttore Giordano Editore, Email: [rocgior@libero.it](mailto:rocgior@libero.it)

Webinar will be in Italian and running on MS TEAMS

Questo Webinar si sviluppa nello spirito di una integrazione tra la Pianificazione Strategica e quella Economica per Trasporti e Logistica in un sistema globale che deve considerare le “peculiarità” Nazionali e trovare soluzioni per competere nel Mondo

Il **Contesto Globale** e i **Sistemi Infrastrutturali** di Accessibilità e Connettività delle Reti richiedono una Integrazione tra Pianificazione Strategica e quella Economica per trasporti e logistica.

Questo Webinar introduce questa importante tematica propendo **Due Casi Applicativi**:

- ◆ Il Port Community System (PCS) per la gestione delle Autorità Portuali
- ◆ La Valorizzazione dei Costi per i Trasporti e la Logistica.

Sotto questo profilo esistono molteplici aspetti **Tecnologici, Legali ed economici** da considerarsi, ma la vera criticità è legata ad avere una visione **Strategica** che sia sostenibile e che consideri **Vincoli, Limiti, Capacità ed Opportunità** della proprio **Contesto Nazionale** per poter competere a **Livello Globale**

Questo Webinar fa parte dei Logistics & Transportation Workshops organizzati da **STRATEGOS** all'Università di Genova

Università  
di Genova

# STRATEGOS Webinar

## Strategies & Economics in Transport & Logistics

9.30-12.00am GMT+2, May 18th, 2020, Webinar (by Microsoft TEAMS [Click Here](#))

POC: Prof. Rocco Giordano, Giordano Editore Director, Email: [rocgior@libero.it](mailto:rocgior@libero.it)

Webinar will be in Italian and running on MS TEAMS

This Webinar develops in the spirit of an integration between Strategic and Economic Planning for Transport and Logistics in a global system that must consider the National "Peculiarities" and find solutions to compete in the World

The Global Context and the Infrastructure Systems of Accessibility and Connectivity of Networks they require an Integration between Strategic and Economic Planning for Transport and Logistics.

This Webinar introduces this important topic by proposing Two Application Cases:

- The Port Community System (PCS) for the management of Port Authorities
- Enhancement of Costs for Transport and Logistics.

From this point of view, there are multiple **Technological, Legal and Economic Aspects** to be considered, but the real problem is linked to having a Strategic Vision that is sustainable and that considers **constraints, limits, capacities and opportunities** of its National Context in order to compete on a **Global Level**.

This Webinar is part of the Logistics & Transportation Workshops organized by **STRATEGOS** at the University of Genoa

Università  
di Genova
