

STRATEGOS Webinar

Pandemics: Criticalities & Fast Tracking

18.00-20.00, March 26th, 2020, Webinar (by VSEE to agostino@bruzzone.org Click Here)

POC: Agostino Bruzzone, Simulation Team President and STRATEGOS Council Chair
Webinar will be in English and running on MS TEAMS, VSEE as Contingency Solution

This Webinar provides elements to understand the Pandemic Crisis as well as the Use of Strategic Engineering in developing Solutions to be implemented by Fast Tracking to support Mitigation Actions and Decisions

DISC

Pandemics represent a major challenge that provides major challenges to all Countries that need to be addressed very quickly including the implementation of Solutions. Countries demonstrated to be slow and not really effective and requires Decision Support Systems based on innovative technologies such as as VESTIGE (Virus Epidemics Simulation in Towns & Regions for Infection Governance during Emergencies) and TOPRO (Town Protection during CBRN and Epidemics) Due to these reasons it is organized this Webinar to present innovative models as well as Criticalities with special attention to Health Care infrastructure and its personnel that is exposed to high risk and over loaded by the epidemic. Industrial Capabilities need to readapt themselves quickly to provide support to each Country This **Webinar** provide opportunity to discuss needs and evaluate possibilities to guarantee effective fast track reaction. The discussion present experiences, simulators and demonstrations by Strategic Engineering, Modeling, Simulation, AI, IA & Data Analytics.

The panel includes, among the others:

- o Prof. Agostino G. Bruzzone, STRATEGOS Council Chair & SIM4Future Partner
- o Prof. Joseph Rosen, MD, Institute for Security, Technology and Society, Dartmouth College,
- o Prof. Jean-Guy Fontaine, Former Head of Research at NATO STO CMRE
- o Prof. Paolo Scotto di Castelbianco, Unige & former Director Intelligence School at DIS
- o Commissioner Massimo Pedemonte, Bomb Squad Commander (Ret.), Italy
- o Prof. Marco Frascio, MD, DISC Deputy & General Chair of Int. Workshop on Simulation for Healthcare
- o Ing. Stephane Nicolas, President Prolexia, Toulon, France
- o Young Strategic Engineers from STRATEGOS
