

*Master of Science in Engineering Technology for Strategy & Security*

## STRATEGIC Engineer Resume

**Name** Syed M Kazim Raza  
**Family Name** Rizvi  
**Citizenship** Pakistani  
**Address** Genoa (GE), Italy  
**Tel** +39 320 022 3965  
**Email** smkazimrazar@gmail.com  
**Skype** kazimraza@live.co.uk

### Education & Special Certificates

**September 2022 - Current, University of Genoa,**  
International Master of Science in Engineering Technology for Strategy  
& Security (Laurea Magistrale),  
STRATEGOS, Genoa, Italy

**August 2014 - May 2018, Habib University,**  
Bachelor's Degree in Electrical Engineering  
Karachi, Pakistan

**2011 - 2013, High School, Army Public College**  
Karachi, Pakistan

### Professional Experiences

**Product Specialist at Lokafy,**  
Toronto, Canada  
August 2023 - November 2023

**Product & Innovation Lead at Jaffer Business Systems Global,**  
Karachi, Pakistan  
March 2021 - February 2023

**Assistant Manager at Habib University,**  
Karachi, Pakistan  
October 2019 - February 2021

**Career & Partnerships Lead at Alpha Education Network,**  
Karachi, Pakistan  
November 2018 - October 2019

**Internship at The Ultimate Learning Accelerator (TULA),**  
Manila, Philippines  
September 2018 - November 2018

**Intern at Maplesoft,**  
Sydney, Australia  
August 2017 - February 2018

## Projects

**Fake News Detector - University of Genoa, GE, Italy**  
Developed an ML model capable of detecting fake news articles with a high level of accuracy. I used a dataset consisting of around 45000 labeled fake and true news articles. Several popular machine learning algorithms, including Logistic Regression, Decision Tree Classifier, Random Forest, and Gradient Boosting, are trained on this dataset to identify patterns and make accurate predictions.

**Undergraduate Thesis - Habib University, Karachi, Pakistan**  
Developed a prototype that can detect cracks on road surfaces using sensors and with the help of convolutional neural networks. The prototype required minimum human intervention.

**Senior Design Intensive - Habib University, Karachi, Pakistan**  
Crafted and executed a plan to revitalize underutilized spaces on campus using design thinking. I conducted field research and met with stakeholders during the Inspiration phase; defined the problem statement and brainstormed during the ideation phase; and conducted iterative prototyping of possible solutions during the Implementation phase.

**Eglett - Karachi, Pakistan**  
Worked with Eglett - a local startup for leather accessories, and helped them deliver a smooth customer-centric experience by making customer journeys and service blueprints.

## Skills

MS Office Suit, C/C++, Python, MatLab, Maple, Adobe Suit, LaTeX, WordPress, Canva, SQL, Figma, Metabase  
Product Management, Agile Software Development, Business Strategy, Startup Development, Design Thinking, Strategic Planning

## Languages

English (Professional)  
Urdu (Native)  
Hindi (Native)  
Italian (Learning)

## Other Activities

- Volunteer for Pakistan Blind Association
- Volunteer for community activities
- Mentored multiple groups in Invent For The Planet (IFTP) 2020
- Senator - Student Government, Habib University
- President - Mathematics Society, Habib University

*I hereby authorize STRATEGOS, the University of Genoa, and the Simulation Team to share my CV for Professional and Scientific Reasons with Companies and Institutions.*
